## I HAVE ALWAYS BEEN A CREATIVE

and I find myself interested in everything around me.  
To my mind "create" characterizes a whole processus, starting from an idea, going through organization, errors, trials... and finishing to an actual realisation of this idea.

## CANDID VIBES

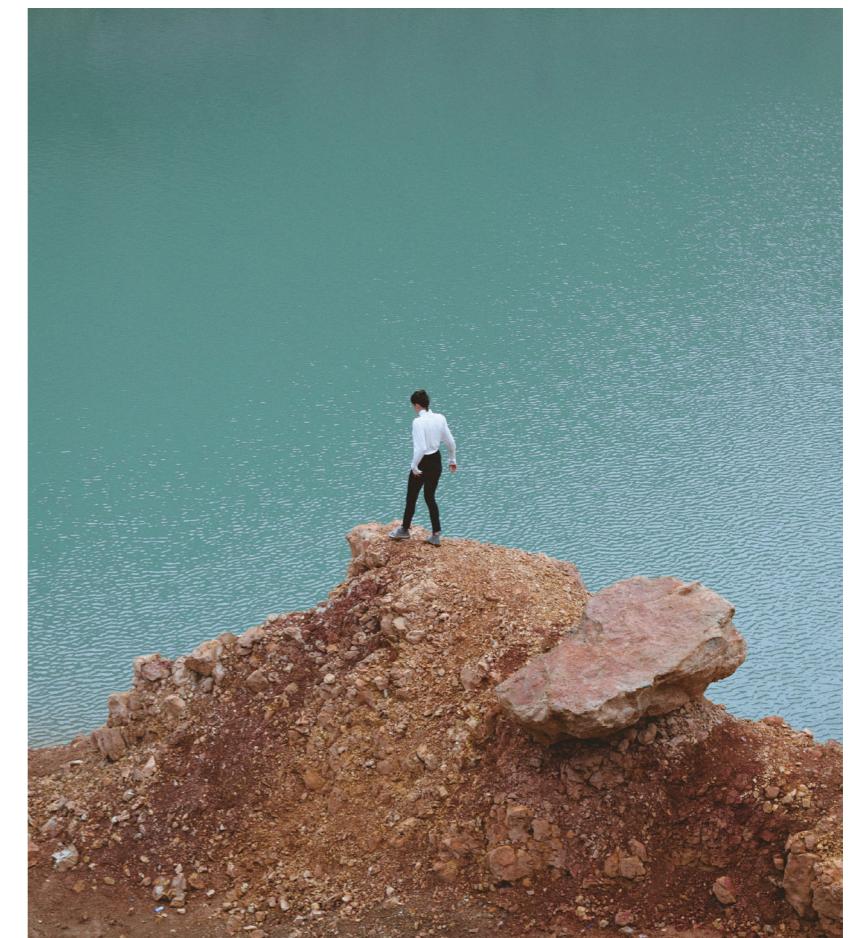

6

In all my photographs I tend to capture candid moments, mix my styles, incorporate people in landscapes.

# identity clothing

I always wanted to have my own brand, my own "identity". And NEGATIVE offered me the opportunity to have this identity, I want to create designs that are pleasing to the eye and uphold ideas that are important to me.

ENVIRONMENT

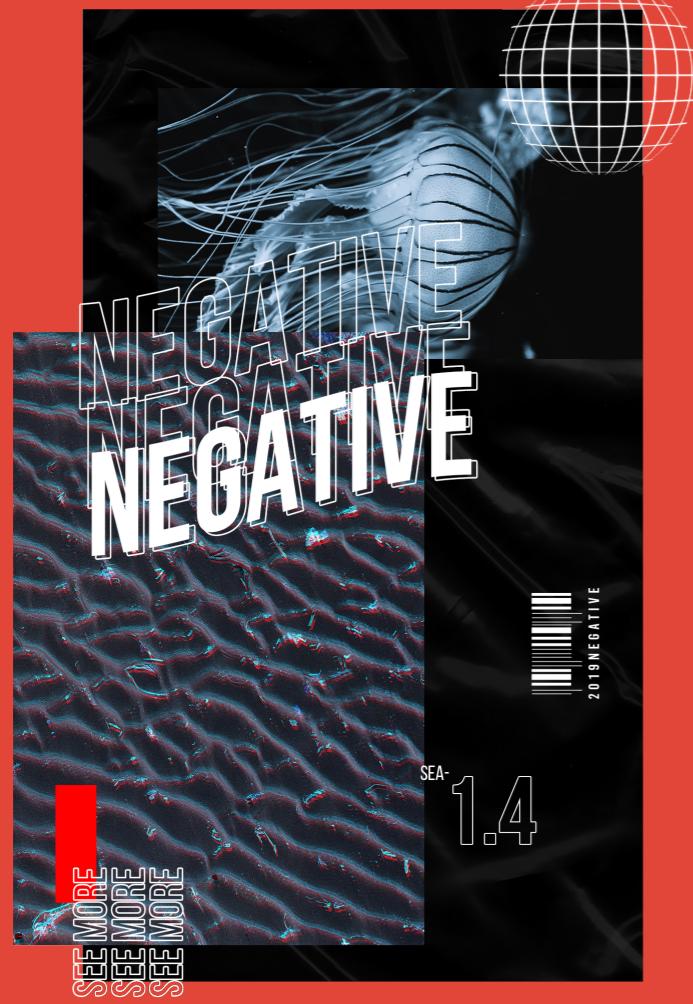

Even if I don't have huge exposure in terms of marketing and branding for NEGATIVE, I can't just create designs without telling "the world" what I have to say. That's why I am doing designs related to climate change and the environment. It's a cause that is important to me.
